

**PRODUCT INFOSHEET**

# Akkadian Provisioning Manager™

## Automation Engine for UC Provisioning

Manual provisioning across multiple UC applications, servers, and clusters is time-consuming and subject to errors or inconsistencies, requiring rework. Our easy-to-use, turnkey solution streamlines UC administration by automating moves, adds, changes and deletes. Get simple, fast and secure provisioning of users with multiple devices for all your UC applications from a single pane of glass.

FEATURE	BENEFIT
<b>Unified workflows</b> across multiple UC applications, servers, and clusters	<ul style="list-style-type: none"> <li>Automation and digital transformation</li> <li>Simplified MACDs and streamlined administration</li> </ul>
<b>Role-based access</b> to delegate tasks to your operations team	<ul style="list-style-type: none"> <li>Risk mitigation and security</li> <li>Free up IT to work on strategic projects</li> </ul>
<b>Self-service</b> portal for employees	<ul style="list-style-type: none"> <li>Scalability and process efficiency</li> <li>End user empowerment and customer satisfaction</li> </ul>
<b>Native integration</b> with Microsoft Active Directory and ServiceNow	<ul style="list-style-type: none"> <li>Zero-touch provisioning</li> <li>Improved SLA's</li> </ul>
<b>Reporting</b> on configuration changes consolidated across multiple clusters	<ul style="list-style-type: none"> <li>Enhanced visibility, management and compliance</li> </ul>
<b>Bulk provisioning</b> to add or delete multiple users from one CSV file	<ul style="list-style-type: none"> <li>Reduce an hours-long task to minutes</li> </ul>

### PRODUCT SUPPORT

- CUCM 10.x-14.x
- Unity Connection 10.x-14.x
- Webex Control Hub (Calling, Meetings, Messaging)
- Jabber
- UCCX 10.x-12.x
- UCCE 10.5-12.x
- Packaged-UCCE 10.5-12.x
- Microsoft 365
- Microsoft Teams

### USE CASES

- Streamline MACDs
- Phone upgrades and migrations
- Contact center provisioning
- Delegate tasks to your operations team
- New dial plan roll-out
- Cisco CPE to Webex Calling migration

## Key Features

### Automation

Eliminate manual tasks from UC provisioning, reporting, compliance, and management.

### Zero-touch Provisioning

Native integration with Microsoft Active Directory and ServiceNow.

### Self-service Portal, Self-provisioning

Let employees provision themselves and manage their own lines, intercoms, and speed dials.

### Directory Number Management

Real-time directory number management with cross-cluster support.

### API Triggers

Automatically update systems outside of your UC.

### Remote Phone Control

Access Cisco IP phones to test, place calls, and change settings.

### Roles-based Access

Decide who has access to which jobs and tools. Custom dashboards.

### Visual Phone Editor

You can even let end users do it themselves via the self-service portal.

### Phone Swap

Upgrade old phone models to new phone models with a mobile app.

### Dial Plans

Query reporting allows you to easily adopt dial plans, like E164.

### High Availability

Automated roll-over to maximize uptime.

### And More...

- RESTful API
- Contact Center Provisioning
- Bulk Provisioning
- Multi-Cluster Support
- Reporting
